

SERIES 32

Batten Strip System

SERIES 32 is a batten strip rainscreen panel system. It is an economically priced panel system with minimal upkeep and flexible installation. The non-progressive easy install is an innovative option to use aluminum composite material on the interior or exterior of buildings. There are three extrusion pieces to enclose the system giving the clean look.

ADVANTAGES:

- Non-progressive Install
- Maintenance Free
- 1/2" System Depth
- Superior Aesthetics
- No Caulk

SERIES 32 BATTEN STRIP SYSTEM
**METAL
DESIGN
SYSTEMS**

 DESIGNED FOR
A PERFECT FIT.

Series 32 is a batten strip system where there are three extrusion types (pictured above), and each type has three pieces. The extrusion types are A: Joint, B: Perimeter, and C: Outside Corner. The pieces are base, retainer, and cover. The non-progressive install is very easy with flat ACM pieces sliding into the extrusions. This all aluminum batten system is an innovative interior or exterior option.
